### Summer Reading + Summer Fun = Summer Learning for Everyone!

- Reading and talking about books starting at birth is one of the best ways to help little ones get ready to read and learn on their own. Babies and older pre-readers can participate in the Summer Reading Program by having books read to them. We also have two new year-round options for ages 0-6: ask about **1000 Books Before Kindergarten** and our **Early Learning Activity Challenge**.
- For school-age students, research shows that summer reading and library use help kids to maintain and improve their reading skills, and to avoid "summer learning loss" through which they can fall further behind each year of school.
- Allowing kids to choose books that interest them – reading for fun – is key to frequent and successful reading practice. The library enables this by providing free access to a wide variety of books.
- Library visits give parents and grandparents opportunities to "model" interest in reading, and to spend quality time with kids talking about books and participating in library activities. We have summer reading programs for adults as well as children and teens!
- Free classes, events and storytimes at the library enrich the life experiences of kids from all socioeconomic levels and help build background knowledge and vocabulary – two more factors in reading success.
- For tips on reading effectively to young children, visit: [growingwisconsinreaders.org](http://growingwisconsinreaders.org)

### Keep reading after the Summer Reading Adventure ends!

"Read Like a Champion!" is an initiative of the Green Bay Packers and Achieve Brown County. It leverages the passion of Packers fans – little and big – to inspire a love of reading and encourages parents to learn how to best coach their Champions into a reader worthy of the Hall of Fame.

Watch for more information coming this Fall!
