Friday, January 19 **1:30-3:00 pm**

Thursday, February 22 **6:00-7:30 pm**

Arduino at the Library! Write code, invent & interact with your environment with Arduino. Have you ever wanted to learn the basics of writing code or building small electronics? Arduino is a credit-card-sized, programmable micro-controller that can read sensors and will turn on lights, run motors, and more, based on the code you write. Once you know the basics, the possibilities are endless! *Space is limited, call (920) 448-5846 to register.*

Friday, January 19 **3:15-4:45 pm**

Thursday, February 22 **6:00-7:30 pm**

Arduino Club For kids and teens ages 10-18 who have attended an Arduino at the Library event. Build new projects and learn more about coding. Guided projects help to expand on your Arduino. If you've already attended a club with the scheduled guided projects, come for the open play with our kits and extra electronic components. Come with ideas or we'll help you find a project to try. *Space is limited; call 448-5846 to register for one or both halves of an Arduino Club session.*

January 19: *RGB LEDs* RGB (red, green, blue) LEDs can display almost any color in the rainbow, all from one tiny LED bulb! Learn how to create a vibrant "mood light" that turns on when the lights are dimmed in a room.

Guided Project: 3:15 –4:00 pm Open Play: 4:00 - 4:45 pm

February 22: *Potentiometers* A potentiometers is a simple knob that can be used to control variety of components, from LEDs to motors. Learn how to use a potentiometer to add a new layer of complexity to simple projects!

Guided Project: 6:00 –6:45 pm Open Play: 6:45 - 7:30 pm
