

Give-A-Kid-A-Book Essay

I like to read because it can increase my learning. It can also help me improve in life. Lastly, it will get me smarter and not have as many problems in my life.

I like to read graphic novels. I like to read them because they have pictures.

Also, they are kind of like chapter books, which I like to read, too. I definitely have a favorite book. It is called *Because of Winn-Dixie*. It's a really good book. Have you heard that there's a movie about it? The movie is really cool, too.

I do have books of my own. Lots of books! And other kids should have some, too. Why? Because I think books are great! They can even make you smarter. Reading is valuable because it can make you smarter and even improve your grades and your life!
