

Common Questions

How many newspapers and magazines can I check out?

You have unlimited access to 7,000+ digital newspapers and magazines from around the world! There are no checkouts or due dates; all available issues can be accessed instantly and issues do not need to be “returned” by a certain date.

How long are back issues available?

Newspapers and magazines that have daily and weekly issues are generally available for 90 days after publication, monthly magazines are usually available for 12 months. This can vary from publication to publication depending on publisher restrictions.

Can I see only the news & publications that I am interested in?

Yes! In a internet browser, click on **For You** in the upper left corner. In the app, tap on **For You** in the lower left. In this area you can choose publications or topics to follow. The latest news stories and magazine issues will appear in your feed. You can add and remove publications and topics to personalize the information you see!

Why is there a “complimentary access” countdown?

PressReader requires that you sign in with your library card every 30 days. When the countdown reaches zero, simply sign in with your library card again.
